## OATSFREE müslipellets for horses and ponies

**COOL** is a müslipellets for those horses and ponies in light work that have a tendency to become "hot" on feed based on oats. **COOL** is also ideal for growing young horses and ponies. Together with good quality forage, **COOL** meets all the nutritional needs, vitamins and minerals but avoids the "over-excitability" often associated with feeding oats.

ÅSEBRO Feed is produced at ÅSEBRO mill in Dalsland, Sweden and the ingredients are based on local production.

ÅSEBRO Feed's production method ensures a product, free from binding agents, where all the nutrients, vitamins and minerals in the ingredients are made available to the horse in an optimal way.

30 kg / bag

Store in dry and cool area

Produced 6 months before expiration date

Ingredients:			
barley, crushed wheat, sugarbeet pulp, lucerne, soya, molasses, salt, brewer's yeast, limestone, linseed meal, minerals, vitamins			
Nutritional analysis per kg feed:		Supplements:	
Crude protein	%	Vitamin A	IE 14000
Digestible crude protein	g	Vitamin D	IE 1300
Oil	%	Vitamin E	mg 500
Fiber	%	Vitamin B1	mg 12
Water	%	Vitamin B2	mg 7
Ash	%	Vitamin B6	mg 14
Common salt	g	Vitamin B12	mg 0,1
Calcium	g	Niacin	mg 33
Phosphorus	g	Fol acid	mg 2
Magnesium	g	Iron (ironsulphat)	mg 2
Energy DE	MJ	Cobolt (coboltsulphate)	mg 0,05
		Jod (calciumjodat)	mg 0,05
		Coppar (copparsulphate)	mg 25
		Selenium (natriumselenit)	mg 0,4
Factory ID no: αSE37900C		Note that wrong doses of selenium can cause poisoning	
Recommended rates of feeding kg/day*			
Quality of forage (7-10 kg/day):		High	Low
Horses in maintenance - light work		2,0-3,0	2,8-3,8
*) Rates of feeding depends on weight, age, breed and workload
